

COMPOSITION / FEATURES

- GOTS (Global Organic Textile Standard) certified linen
- 100% of the yarn consists of natural textile fibers from organic farming

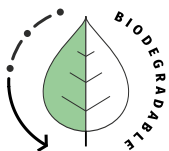

Linen is a natural material, whose use leads to a reduction in impacts related to CO₂ equivalent emissions.

Linen used by Riri is certified and guarantees that:

- Neither toxic or harmful nor GMOs are used;
- There is a control and certification system for the whole supply chain;
- There is full compliance with social criteria.

Linen is available on:

- Zipper tapes: feasibility must be verified
