RECYCLED POLYESTER

Material sheet

COMPOSITION / FEATURES

- Made from 100% recycled post-consumer material.
- GRS (Global Recycled Standard) certified
- -32% of CO_2 eq. compared to virgin polyester

Recycled polyester is the production standard for Oerlikon Riri range of tapes. Thanks to its use, emissions resulting from polyester purchase are reduced; thus, also carbon footprint for zip production is cut down.
An important contribution is made to the goal of increasing the global use of recycled polyester, as stated by Textile Exchange, from 14% to 20% by 2030.

Recycled polyester is available on the following products:
- all the range of zippers with polyester tape
